

ASSIGNMENT 1

Create a streamlit UI that will take in a city name and print the weather information in the UI.

Use the openweathermap service to get the weather information.

ASSIGNMENT 2

Get the EDA and Machine Learning mldemo.zip codes working

ASSIGNMENT 3

Impact of EDA and Feature Engineering on prediction quality:

Use the provided dataset and starter code to build a ML prediction solution.

See if EDA/Feature Engineering improves it.

Starter code and data file at:

https://github.com/vijay-agrawal/genai-batch3/blob/main/ml_assignment_code.zip

ASSIGNMENT 4

Explore notebooks on Kaggle.com in your area of interest.
